Seminar Representation theory of algebras (Seminar MAT595)

▶ *Slogan.* Represent whatever is hard to understand using matrices.

▶ *Who?* BSC or MSC or PhD students in Mathematics, but everyone is welcome.

▶ *Preliminaries.* Some linear algebra and algebra.

▶ *When?* Monday 13:15-15:00.

▶ *Website.* http://www.dtubbenhauer.com/seminar-algebras-2020.html

▶ *Topics.* The representation theory of algebras – a classical topic of mathematics, where algebra meets graph theory and combinatorics.
